Identification of the Principle Proposed Amendments of a Substantive Nature Discussed:

Amendments to independent claims 19 and 38 were discussed. In particular, it was discussed to amend "computer-readable medium" to "computer-readable storage medium" in claim 19 and to amend "computer-readable media" to "computer-readable storage media" in claim 38.

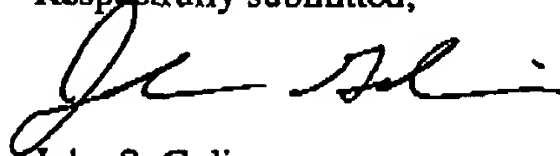

The General Thrust of the Principal Arguments of Applicant and the Examiner:

With respect to the 101 rejection of claims 19-39, amendments to independent claims 19 and 38 were discussed such that the claims would clearly comprise patentable subject matter. With respect to the 112, first paragraph rejection of claims 1-39, Applicants' representatives argued that there is support in the specification for amendments previously made to the independent claims. In particular, Applicants' representatives noted portions of the specification providing support for the amendments as well as arguments made in a previous response.

General Indication Of Any Other Pertinent Matters Discussed:

It was agreed that the amendments to claims 19 and 38 would overcome the 101 rejection of claims 19-39. The Examiner kindly indicated that the amendments would be made by an Examiner's amendment. Additionally, it was agreed that in light of arguments made in response to the 112, first paragraph rejection of claims 1-39, the rejection would be withdrawn.

Respectfully submitted,

John S. Golian
